

## TEA

I grew up in England where little Tea Rooms might be tucked away in the corner of a village library or in the back of a local department store. My Tea Room is based on these quaint and casual little getaways.

The Tea Room is not a full service restaurant and neither is it a place to grab a bite of fast food, or take-out. It is a place to relax, a place of tranquility, away from the hustle and bustle. In keeping with the belief

I have that we should reduce, reuse and recycle, you should know that I recycle all items possible, including composting appropriate kitchen scraps, and returning styrofoam packing material for reuse.

All of our salads, soups (in season), baked goods and sandwiches are made in the Tea Room kitchen, from the freshest ingredients.

We constantly strive to provide our customers with the highest quality teas from around the world.

I hope you will find this little Tea Room to be one of your favorite hideaways.

## TREASURES

In the gift shop you will find Tea themed jewelry, notepads, calendars, greeting cards.

I also stock British Foods, Teaware, including my own hand painted teapots: tea strainers, infusers and gold and silver plate teaspoons. I also create unique functional art lamps, chairs, and much more, from recycled items.
